Logging Books for the Summer Reading Club

After logging into your account, you will be brought to your homepage. On the left-hand side of this page, you can select the Logging feature to begin tracking books or time spent reading. If you are a primary account holder with children, you can switch between readers via the user dropdown.

If you are logging for multiple readers, it is possible to track the same titles for all or some of your readers. For example, if you are a parent who has read the same book to two children, you can easily log this book for both children at once without having to switch between users.

For the school age club (grades K-5), students will be logging their books by minutes read. Select MINUTES and then enter the amount of minutes read that day. Logging minutes for this age group, allows for a variety of ages and reading levels to participate in the same way.
